Professor Joshua Lederberg  
Department of Genetics  
Stanford University, Medical School  
Palo Alto, Cal.  
USA.

Dear Josh,

Thanks very much for your letter which came as a very pleasant surprise. I am of course thrilled by the idea of seeing you and Esther again in your new surroundings.

My plans were completed and my itinerary was - after the best models - sent around to the people I was going to visit. As all these visits are in the vicinity of New York (in a rather wide sense, i.e. Atlanta, Washington and New York itself) I feel that the best thing to do will be to go to Stanford on the 30<sup>th</sup> of September after the visits already planned. I have no timetables at hand right now but I feel that quite a number of flights from New York to S. Francisco are available, and further that departure at noon from New York will bring one to S. Francisco the same evening. I have ordered a around trip ticket Copenhagen-New York-San Francisco - New York - Copenhagen and according to the available information the difference in price between the original around trip ticket Copenhagen - New York <sup>(or Boston)</sup> and the new one Copenhagen - San Francisco will be 232 \$/.

I am very happy about this extension of my trip  
and am really looking foreward to seeing  
you both.

Greetings from Ida.

Yours,

9/30.0/K.

Frits Ørskov  
 Statens Seruminstitut  
 Copenhagen  
 Denmark.

ITINERARY

Arr. New York	Dr. Jungeblut, Columbia Univ.	Tuesday 19 Sept.
